

CAPABILITY STATEMENT

Developing People. Strengthening Organizations. Improving Performance.

COMPANY OVERVIEW

Hello Ellington, LLC is a learning and development company that builds programs, training, and practical solutions that help people and organizations perform better. We support government agencies, public institutions, prime contractors, and mission-driven organizations through leadership development, workforce training, curriculum and instructional design, facilitation, and organizational support.

CORE CAPABILITIES

- Leadership & professional development
- Adult learning, workforce training & career readiness
- Curriculum, instructional & learning experience design
- Virtual and instructor-led training & workshops
- Course, program & training-material development
- Facilitation, stakeholder engagement & focus groups
- Strategic planning facilitation & implementation support
- Organizational effectiveness & process support

SELECTED DELIVERABLES

- Leadership and professional-development programs
- Facilitator guides, participant workbooks & toolkits
- Learning objectives, assessments & instructional materials
- Customized workshops and facilitated sessions
- Program plans, implementation tools & recommendations

DIFFERENTIATORS

- Human-centered learning design grounded in audience needs and real-world application
- Learning + operations perspective connecting development goals to implementation
- Customized solutions aligned to agency priorities, audiences, and desired outcomes
- Experience coordinating enterprise learning systems, training workflows, SMEs, reporting, and large-scale rollouts

RELEVANT EXPERIENCE & EXPERTISE

Founder Stephanie W. Henry, M.Ed. brings 15+ years of experience across strategic operations, project management, learning and development, process improvement, governance, stakeholder coordination, SOP development, compliance, and training implementation. Experience includes enterprise learning systems, national training-program coordination, federal service-contract support, workforce onboarding/compliance, and subcontractor operations in a federal/nuclear environment.
